

## Mission Statement:

### Welcome Home Senior Residence

is created to provide a warm and comfortable living situation, where every senior resident feels like living at his/her own home, while receiving 24-hour attention and care that is not available at his/her own home. We understand the dilemma family has to face in caring for the elderly family members in the modern society. Our goal is to ensure that every resident feels comfortable and secure by attending to all individual needs and requests. We want to decrease the stress of the family members and help maintain a good relationship between the elderly and their family.
